Climate Bonds Connect 2022

JOIN THE CONVERSATION - BE PART OF THE SOLUTION

Building on the success of previous years, Climate Bonds CONNECT 2022 will bring together key decision-makers and top-tier influencers at a series of hybrid world-class events, convened in key financial capitals around the world, including Singapore; London; Mexico City and New York.

These events will gather the most influential investors, asset owners, financial leaders and policy-makers to discuss opportunities for the private sector and government to address the climate crisis. With a mix of invitation-only in-person events and a global online audience connected to the discussions.

Climate Bonds CONNECT 2022 will combine the power of in-person events with the reach and flexibility that online participation provides to drive the sustainable finance agenda forward and reach the issuance of US\$ 5 trillion of climate bonds per year by 2025.
